THE HERO'S CODE

To be a true Savings Hero, you must follow the triple-threat strategy:

THE VAULT (Save): Put money away first for your big mission.

THE ARMORY (Spend): Use a small amount for things you need now.

THE ALLIANCE (Give): Set aside a little to help other heroes in need.

Hero Tips for Fast Tracking:

The "Wait-Signal": Before buying a toy, wait 24 hours. If you still want it, it's a true mission. If not, save the credits!

Side Quests: Ask for extra chores around the "HQ" (home) to earn bonus power-ups.
